

Certificate of Flame Resistance

This is to certify that the fabric described hereon has been flame retardant treated for:

DISPLAY PRODUCTS

800 FABRIC XPRESS WAY

DALLAS, TX 75234

and processed in conformance with the laws of the state of California, NFPA 701 Small Scale, NFPA Large Scale SS, Boston Fire Department, New York Port Authority, and Commonwealth of Massachusetts. After the flame retardant chemicals were applied the fabric was completely immersed, squeezed under pressure and dried in a tenter frame. The fabric will withstand up to ten pure solvent dry cleanings and annual testing for flame resistancy is recommended as atmospheric conditions can alter the effectiveness of flame retardant chemicals, which are water soluble.
