

HANGING STRUCTURE SET-UP

Assemble cross bar (figures 1, 2 & 3) then insert bar into rod pocket on banner. Attach white corner pieces (figures 3, 4 & 5) with button facing upward. Repeat these steps to form each side of the structure. Repeat for bottom of structure.

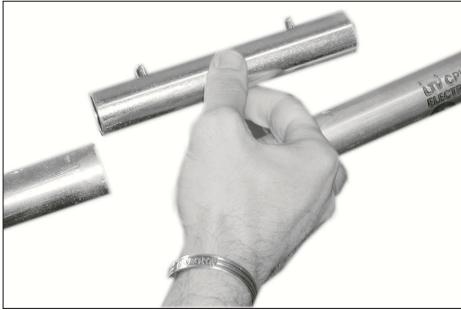

Figure 1: Steel connector shown, note two buttons.

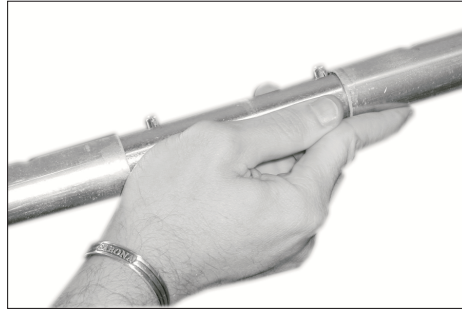

Figure 2: Place steel connector into two steel bars.

Figure 3: Press buttons down and slide connector into bars until the button pops thru the hole in the bar.

Figure 4: Line up corner piece, buttons up, with steel bars.

Figure 5: Press buttons down on corner piece, and side into bars until the button pops thru the hole in bars.

Figure 6: Installed corner piece.
